Dividends will commence in less than six weeks on the stock of the Uncle Oil Company of Kansas. There is only about one-tenth of this valuable stock Dividends will commence in less than six weeks on the stock of the Uncle Sam Oil Company of Kunsas. There is only about one-tenth of this valuable stock left unsold and that is being taken every hour. Money received on stock and from sales of refined oil for week ending May 5th totaled \$15,600.00, while for week ending May 12th, with one good mail to hear from, was over \$17,000.00. Over one-quarter of million dollars have then subscribed for this stock at the same price

Thousands are figuring on purchasing part of this stock, and record breaking remittances are certain to follow during the next few weeks. Better send your order in early and secure some of this dividend stock before it is all sold or doubled

During the next sixty days the carning capacity of this growing enterpriswill have been increased Ten Times by the completion of the great river refinery Uncle Sam No. 2, by Aatchison, and also Uncle Sam refinery No. 3 at Tulsa, Indian territory; and sixty days longer the earning capacity will again be increased nearly double and will continue to increase until Uncle Sam chain of three great refineries will be up to 18,000 barrels daily capacity. With the balance of the stock sold at the old price of twenty cents per share, will place this great independent enterprise to where it can safely enlarge from time to time to this capacity,

Anothe great offer was completed last week on Eleven Hundred acre Lot 48, Osage, and another Uncle Sam drill is down to-day within 48 hours' run of the pay dirt and may develop the greatest oil pool in the Osage country. This stock is not only efferred at a price that is right, but by development the assets back of it are continuously increasing.

*Miles of pipeline are arriving daily. Pipeline pumping stations are being completed, and it is to crowd all this great work to final completion that this stock is offered at the present low price. By investing a few hundred dollars in Uncle Sam now you will not only help a good cause on to grander success, but will secure a safe dividend investment that you will not have the opportunity to procure right away again.

Dividend Will Be Paid June 20, 1995. There are few weeks left yet that you can secure stock in the Uncle Sam Oll Company, and participate in the first dividend to be paid by the company. If the stock is not all sold by June 20th, it is safe to figure that it will be much ligher or quickly picked up after the first dividend is paid. There are now nearly eight thousand stockholders, and they are continually increasing their holdings and inducing their friends to buy. The days are limited that you or any one will be able to secure Uncle Sam stock. Better send in your remittance while the price is right.

Why Uncle Sam Offers You a Good Deal.

It is the common talk among business men that this stock could be sold for more money. Higwever, this company has a great work to complete, and by selling the balance of the stock at even the 20 cents per share will be able to place liself where it can build, too, as large as it desires. For the past five months the stock has been selling at 20 cents per share, until now close to one-quarter of a million dollars has been subscribed at that price. This money has all gone into the enterprise, and every one knows that under these conditions the stock is a good buy even at 35 cents per share. However, the company figures that by rushing the work to completion it can soon make back all that it loses on the low price of stock. Consider what the company has accomplished in the past five months, and you will have to admit that you are offered a rare opportunity of investment herein. One that is commanding respect and consideration from investors from all over the United States, and one that you will have to savil yourself of at once or it will be all soid.

Seven out of ten readers of this paper are tortured with piles or some form of rectal disease. You are, or you would not be reading this article. Thirty years ago doctors carried a lancet in their vest pocket and bled people for all sorts of diseases, and bled them hard—sometimes a quart at a time, it was the fashion then. All that is changed nowadays, and a doctor with a lancet would be considered a curtosity.

Five years ago doctors "cut out" Piles wherever they got the chance. All that has been changed since the marvelous soothing, healing and curative properties of Pyramid File Cure have become known.

By every mail we get letters like this:
